# VIRTUAL BOOK CLUB

A fun way to foster learning and connections - all from the safety and comfort of your home!

## Step 1: Recruit Your Club Members

- You can start a book club with one friend or many - ask your best friends, family members, classmates, or coworkers if they'd like to join!
- There are also existing virtual book clubs you can join - most regional libraries host book clubs for different age groups and interests!

## Step 2: Choose A Book

- You can choose a book you and your club member(s) already have (such as one that's assigned for class), order one off of the internet, or access thousands of free books online or in person through your local library! Find your local public library [Here](#)

## Step 3: Set Your Meeting Times

- Depending on the book chosen and your reading levels, you can choose to meet every week, two weeks, or once a month.
- Make the challenge more approachable and gather regularly to discuss a few chapters at a time
- Schedule your Zoom or Teams meetings in advance to keep yourself accountable and build excitement!
